A LETTER FROM BOB

My father used to say “the only constant in life is change”. I believe all of us would agree 2020 brought changes to our daily lives that will continue to impact us for years to come.

Here at Lamkin continuous improvement and innovation have been a constant since my grandfather started Lamkin in his Chicago garage in 1925. Our material chemists and product engineering group have one collaborative mindset when defining new models to market: listen to what golfers are asking for in their grip of choice and deliver on those expectations. Meeting the needs of all golfers regardless of score is and always will be a critical success factor at Lamkin. I cannot be more proud of our 2021 product line with our Sonar, new Calibrate and ST Hybrid offerings all bringing advanced features for superior playability and performance. We are also extending our pioneering Genesis Material line-up enriching our Crossline product line with a 360 Genesis Full Cord as well as adding the first Genesis Material rubber sleeved putter grip: Deep-V STD and MID to our Putter Grip Fitting System. The Deep-Vs are accompanied this year with new putter grip shapes with truly dynamic cosmetics to augment our offering in the traditional polyurethane segment to round-up how to best fit golfers to a putter grip.

While the stay at home mandate hampered the launch of our Regrip America campaign (getting complimentary grips into the hands of golfers and driving consumers to our partner retailer locations) the consumer feedback and retail success of the programs has been such that we are extending our commitment through 2021.

While we at Lamkin are proud of this years line up we are excited to open the next innovation door to see what’s inside. As you can see we are passionate about the grips we produce and the game we love to play!

I would like to take this opportunity to thank all of you who have been loyal followers of Lamkin throughout it’s now 96 year history. None of which could have been possible without your continued support and for that allow me to express my sincere appreciation.

Let’s make 2021 a year to remember on and off the course!

REGRIIP AMERICA 2021

Invite golfers to receive a **FREE GRIP AND INSTALL**.
Ask your grip distributor how to join.

By simply redeeming a voucher at participating
retailers, golfers receive one FREE grip, including install.

We're so confident golfers will love our grips that we're
giving them an additional free grip with the purchase
and install of eight or more swinging grips. It's the perfect
incentive for players to upgrade with Lamkin in 2021 and
drive traffic to our partners.

To learn about the program and ensure your store is
included, contact your grip distributor.

Visit lamkingrips.com/upgrade to #AllTheFeels

GENESIS

Patent-pending, hybrid compound that delivers:

- Unparalleled comfort and performance
- Tacky surface
- Consistent feel in all climates
- Superior durability to standard rubber

ST - SMOOTH TACK

Special formulation of Genesis Material provides:

- Tacky smooth surface
- Comfortable, welcoming feel
- Dual-zone performance
- Superior durability to standard rubber

ST - SMOOTH TACK

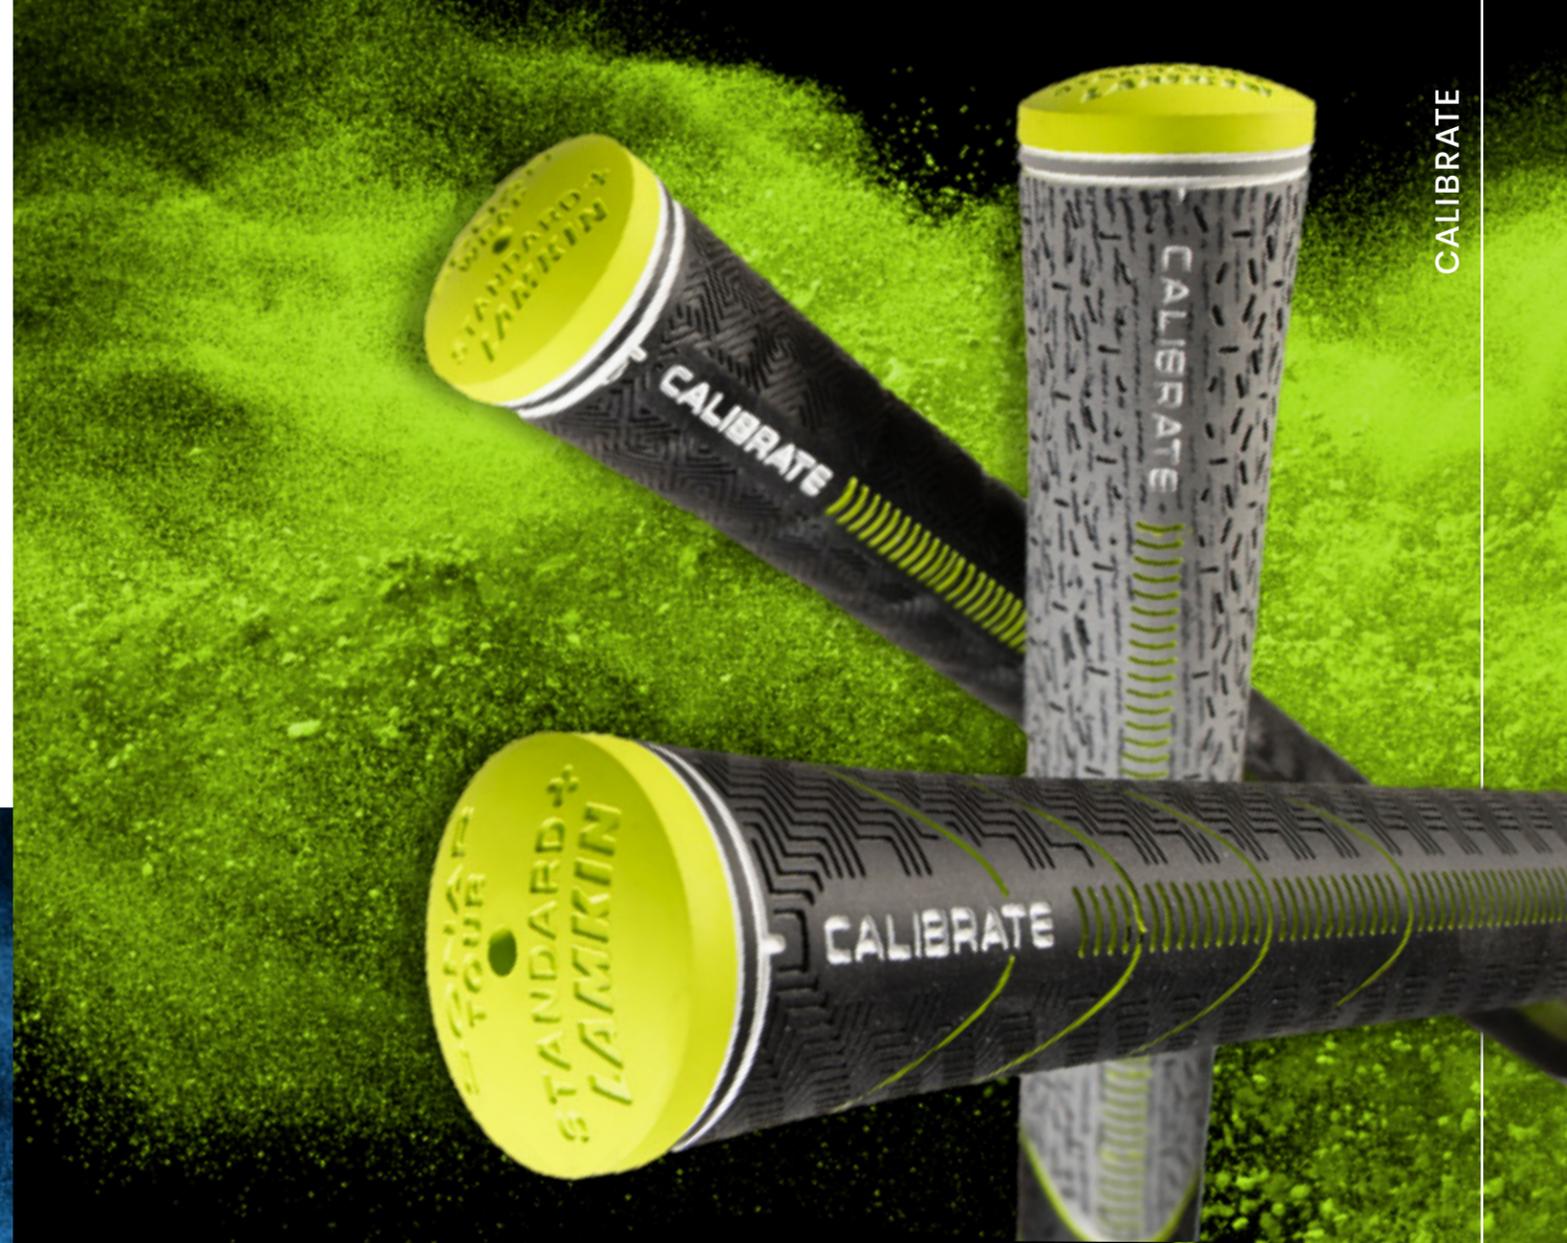

Intricate micro-textures on grip surface offers:

- Comfortable high traction
- Unmatched torsion control
- Slip-free performance

FINGERPRINT

CALIBRATE

CALIBRATE® TECHNOLOGY

Our biggest reminder ever encourages:

- Optimal hand placement
- Heightened club face awareness
- Improved alignment
- Maximum control for better shot-making

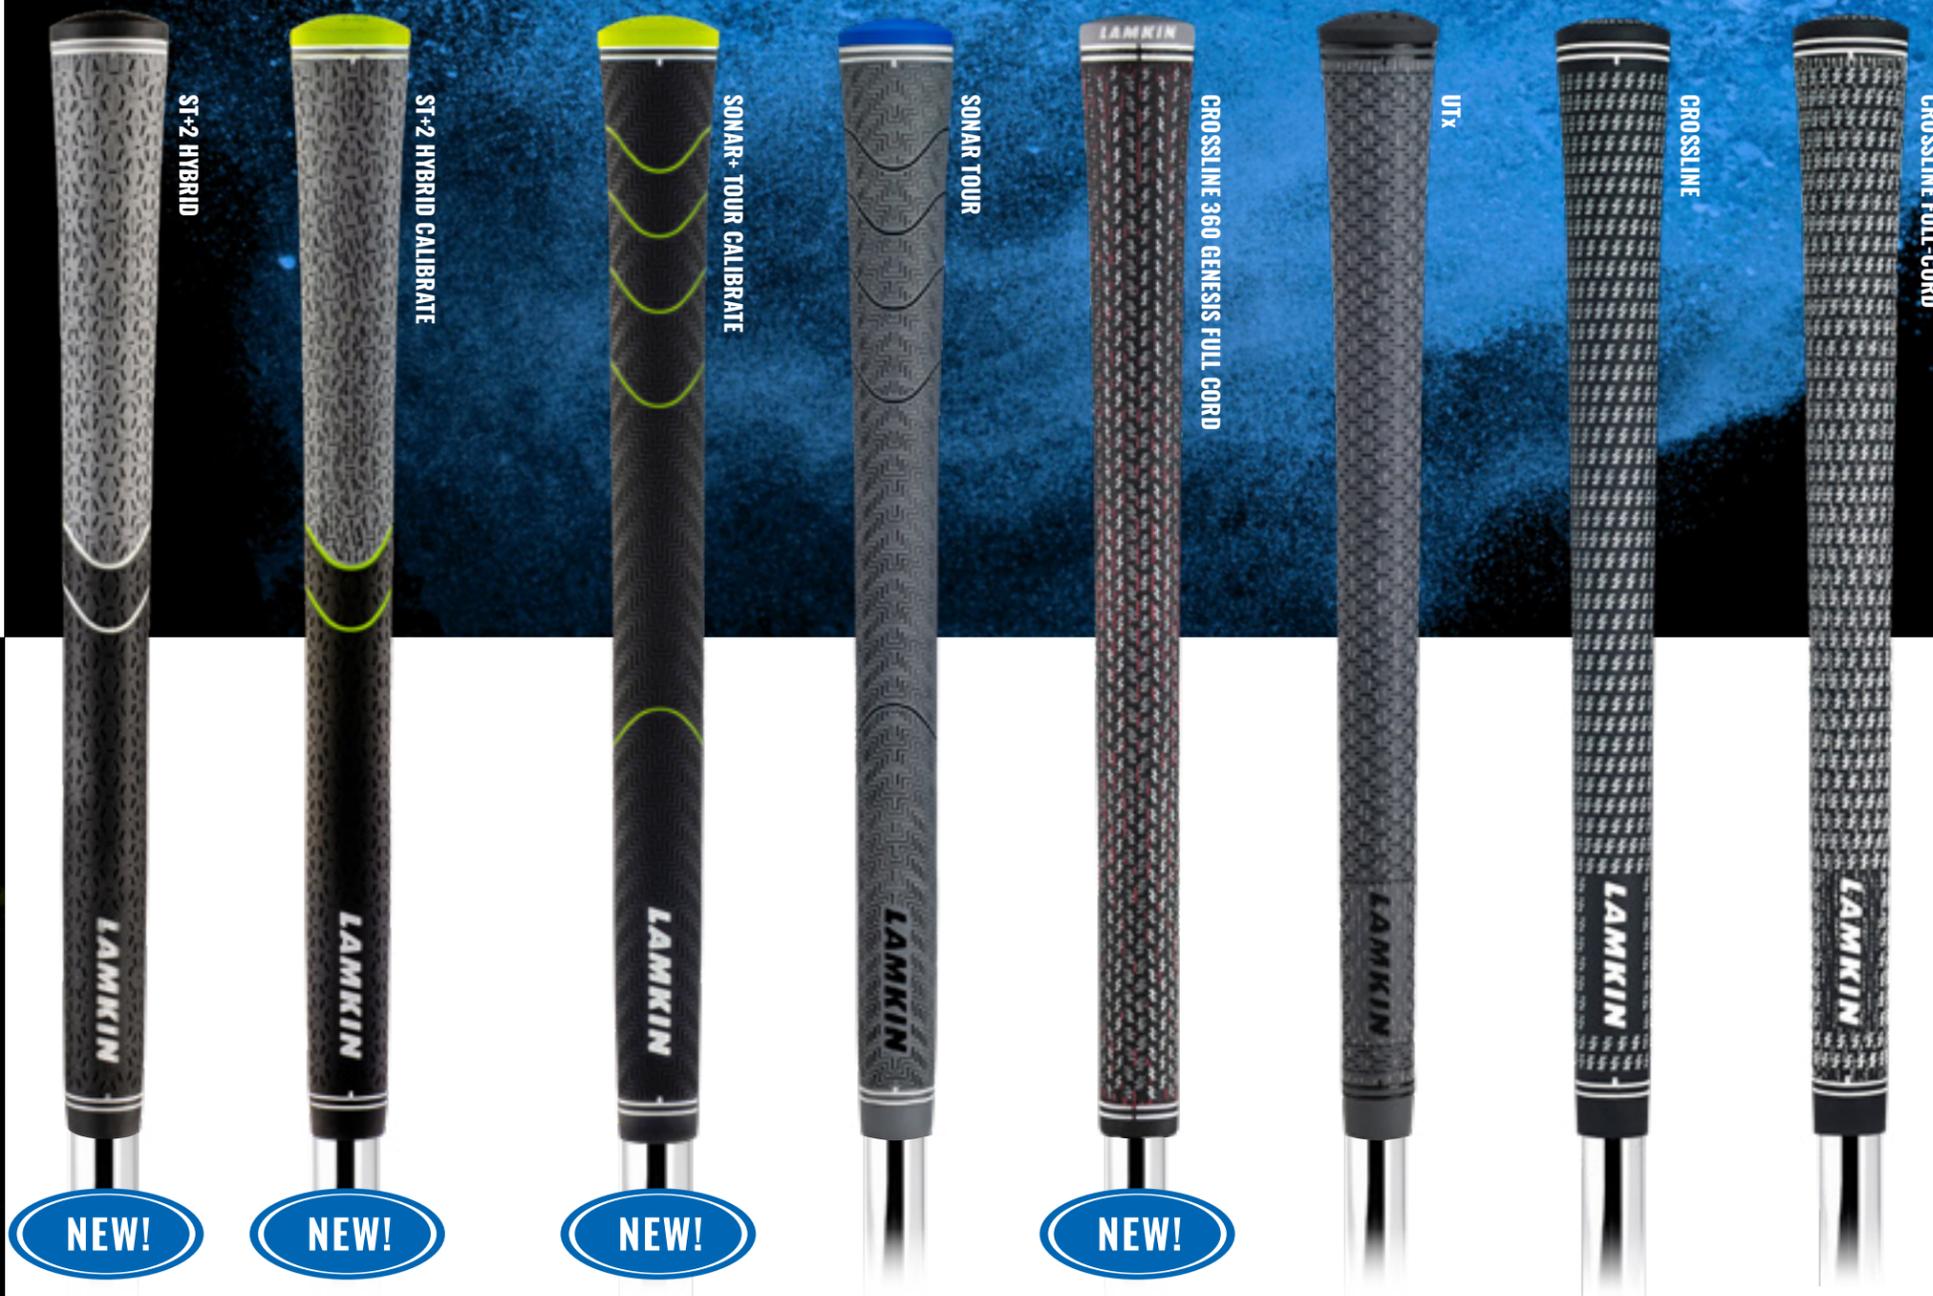

2021 SWINGING GRIP LINEUP

Over the past 95+ years, Lamkin has been the leading innovator in the grip category. Our current lineup of new and classic models exemplifies why Lamkin grips are preferred by scores of professionals and amateurs around the world. We truly have something for everyone.

SOFTER

FIRMER

FEEL ALL THE FEELS

* The "+" sign indicates the grip simulates 4 additional wraps of tape on the lower hand, +2 means 2 additional wraps

NEW SONAR+ WRAP CALIBRATE

For golfers who prefer the feel of wrap style grips and looking for innovative technology designed to help their game, Sonar+ Wrap Calibrate is the first and only wrap-style grip on the market featuring reminder technology. Also featuring Fingerprint Technology and Genesis Material, Sonar+ Wrap Calibrate is a solid performer by providing a tacky feel with excellent traction, in all weather conditions.

- Calibrate Technology delivers a more pronounced and conforming reminder grip, providing golfers optimal hand placement, club face awareness, and control
- Genesis Material provides a solid feel that maintains tackiness in any weather as well as a superior feel over traditional rubber grips
- Fingerprint Technology adds a consistent micro-texture pattern for outstanding grip comfort with lighter surface traction
- Straighter reduced-taper profile offers a slightly larger lower hand to promote lighter grip pressure for greater consistency and control

CALIBRATE[®]
TECHNOLOGY

"As the first and only reminder wrap grip, Lamkin is paving the way to lower golf scores."

- **The Hackers Paradise**

CALIBRATE TECHNOLOGY

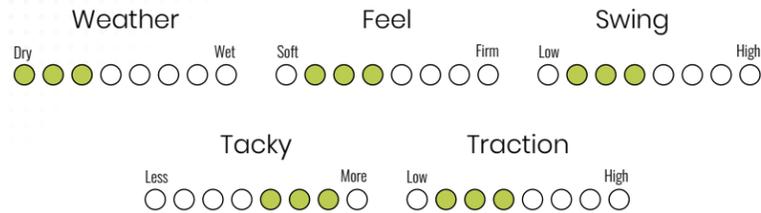

Calibrate Technology delivers a more pronounced and conforming reminder grip, providing golfers optimal hand placement, club face awareness, and control.

| Sonar Wrap Calibrate | Standard+ | 101925 | Black/Green | .60 Reminder | 53g |

NEW SONAR+ TOUR CALIBRATE

For golfers with higher swing speeds seeking a high-performance grip to enhance shot-making from tee-to-green, Sonar+ Tour Calibrate features reminder technology to promote consistent hand placement and greater control of the club to better square the face at impact. It is purposefully engineered with Lamkin's proprietary tacky Genesis Material in a slightly firmer durometer, and Fingerprint Technology for enhanced torsion control and consistent feel in any weather.

- Calibrate Technology delivers a more pronounced and conforming reminder grip, providing golfers optimal hand placement, club face awareness, and control
- Genesis Material provides a solid feel that maintains tackiness in any weather as well as a superior feel over traditional rubber grips
- Fingerprint Technology adds a consistent micro-texture pattern for outstanding grip comfort with lighter surface traction

CALIBRATE[®]

| Sonar Tour Calibrate | Standard+ | 101924 | Black/Green | .60 Reminder | 53g |

NEW ST+2 HYBRID CALIBRATE

Perfect for players seeking a grip that provides excellent all-around performance in a smoother, tackier, and more tactile feel, the ST+ 2 Hybrid Calibrate features a variety of breakthrough technologies designed to provide maximum playability and performance. While the Calibrate Technology reminder encourages consistent hand placement for better control, the all new "Smooth Tack" Genesis Material incorporate into two distinct zones to provide more traction in the upper hand and soft tactile feel in the lower for incredible performance.

- Calibrate Technology delivers a more pronounced and conforming reminder grip, providing golfers optimal hand placement, club face awareness, and control
- Smooth-Tack (ST) Genesis Material offers a great feeling tacky surface that is long-lasting, comfortable, and far more resistant to degradation than standard rubber compounds
- The grip's hybrid lower section capitalizes on a smoother, tackier treatment further accentuated by the slightly larger plus 2 design profile to provide the guiding hand a comfortable, tactile feel

CALIBRATE TECHNOLOGY

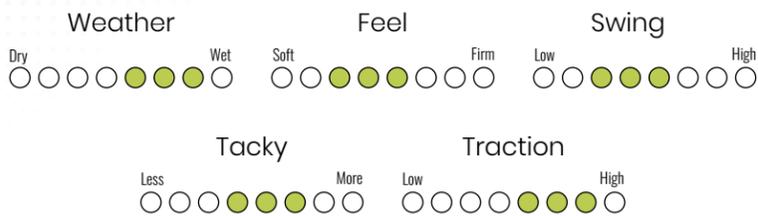

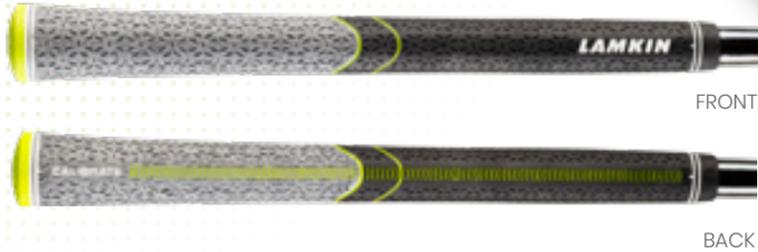

Calibrate Technology delivers a more pronounced and conforming reminder grip, providing golfers optimal hand placement, club face awareness, and control.

CALIBRATE TECHNOLOGY

"This is the perfect grip for the golfer seeking high-touch and high-traction."

- PGA Magazine

| GRIP | SIZE | PART # | COLOR | CORE | WEIGHT |
|---------------------|------------|--------|------------|--------------|--------|
| ST Hybrid Calibrate | Standard+2 | 101927 | Black/Gray | .60 Reminder | 54g |
| ST Hybrid Calibrate | Midsize+2 | 101928 | Black/Gray | .60 Reminder | 58g |

NEW ST+2 HYBRID

For any golfer looking for an all-around superior performing grip, ST+2 Hybrid features Lamkin's newest "Smooth Tack" Genesis Material providing a superior feel with a tacky surface that is long-lasting, comfortable, and far more wear-resistant.

Designed to provide traction in the upper hand and a soft tactile feel in the lower hand, golfers will fully experience the grip's unique hybrid characteristics, thereby gaining more control over shots.

- Smooth Tack (ST) Genesis Compound provides all weather traction, incredible durability and exceptional tactile feel via a smooth and tacky surface
- Infused Cord in the upper zone blends with ST Genesis Material to give the anchoring hand unmatched traction without the abrasive feel sometimes associated with cord

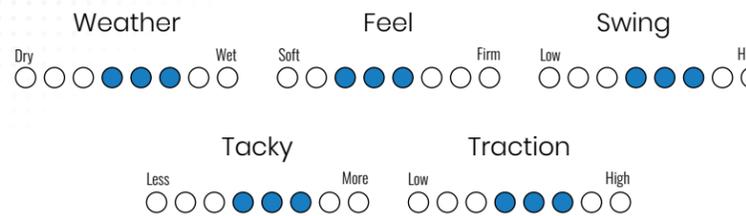

SMOOTH TACK

Smooth Tack provides a great feeling tacky surface that is long-lasting, comfortable and far more wear resistant than standard rubber compounds.

"When you need performance but don't want to sacrifice comfort."

- AmateurGolf.com

| GRIP | SIZE | PART # | COLOR | CORE | WEIGHT |

| ST Hybrid | Midsize+2 | 101930 | Gray/Black | .60 Round | 57g |

SONAR TOUR

For the more serious golfer looking for high performance playability, Sonar Tour's traditional taper design features Lamkin's propriety Genesis Material in a slighter firmer durometer and Fingerprint Technology for control and traction.

- Proprietary Fingerprint Technology featuring a consistent micro-texture pattern for outstanding grip comfort with lighter surface traction
- Made with Genesis Material for enhanced torsion control and consistent feel in all weather conditions
- Unique finishing process preserves the grip's super tacky surface
- Logo-down design inspired by Tour player preferences

"Hits a sweet spot in terms of feel, look, and features that few other grips can get quite right."

- Plugged In Golf

| GRIP | SIZE | PART # | COLOR | CORE | WEIGHT |
|------------|----------|--------|-------|-----------|--------|
| Sonar Tour | Standard | 101916 | Gray | .60 Round | 52g |

SONAR+

Sonar+ is designed for both aspiring and accomplished players seeking groundbreaking technology in all aspects of their equipment. As the original Sonar, this grip blends Lamkin's micro-texture Fingerprint Technology with super-tacky Genesis Material in a reduced taper shape to promote lighter grip tension for a more fluid and consistent swing.

- Proprietary Fingerprint Technology featuring a consistent micro-texture pattern for outstanding grip comfort with lighter surface traction
- Made with Genesis Material that is slightly softer than traditional rubber, but with superior durability
- Straighter, reduced-taper profile promotes hand unity and eliminates excess grip tension

"This grip is a true winner.."

- Amazon Review

| GRIP | SIZE | PART # | COLOR | CORE | WEIGHT |

| Sonar | Undersize+ | 101901 | Rose Gold | .60 Round | 47g |
| Sonar | Standard+ | 101902 | Black/Blue | .60 Round | 53g |
| Sonar | Midsize+ | 101903 | Black/Blue | .60 Round | 57g |
| Sonar | Oversize+ | 101926 | Black/Blue | .60 Round | 77g |

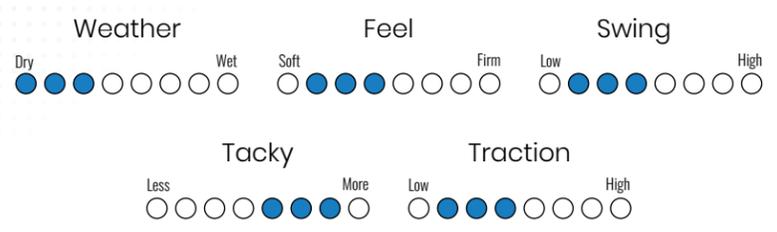

SONAR+ WRAP

For golfers of all levels seeking a traditional wrap-style grip infused with modern technology, Sonar+ Wrap offers exceptional feel as well as tee-to-green performance. Bolstered with Lamkin's Genesis Material and Fingerprint Technology to provide exceptional durability and enhanced comfort, Sonar+ Wrap's straighter, reduced-taper profile provides golfers greater consistency and control.

- Proprietary Fingerprint Technology featuring a consistent micro-texture pattern for outstanding grip comfort with lighter surface traction
- Made with Genesis Material for enhanced torsion control and consistent feel in all weather conditions
- Progressive skive dimensions based on grip size provide improved feel and fit vs. traditional wrap-style grips

"This wrap grip feels so much better than wrap by the other big brands, more traditional and softness is 2 thumbs up."
- Eye4Golf

| GRIP | SIZE | PART # | COLOR | CORE | WEIGHT |

| Sonar Wrap | Midsized+ | 101915 | Black | .60 Round | 57g |

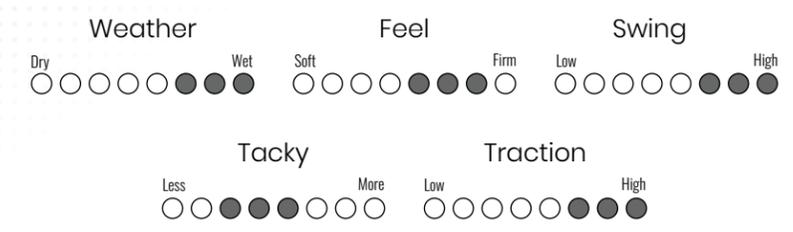

UTx

Specifically developed for players with higher swing speeds looking for excellent traction in a softer feeling full-cord grip, the UTx is designed to deliver longer and more consistent shots. its Tri-Layer Technology blends three unique materials to provide exceptional torsion control and superior vibration dampening.

- Tri-Layer Technology blends three unique materials to create the perfect-feeling grip
- The softer ACE foundation offers enhanced comfort and feel while the firmer outer layer ACE material provides superior torsion control and vibration dampening
- Full-cord fabric weave wicks moisture and increases grip traction

"Its' cord is present enough to give you that great traction, but subtle enough that you don't realize you're using a cord grip."
- Driving Range Heroes

NEW CROSSLINE 360 GENESIS FULL CORD

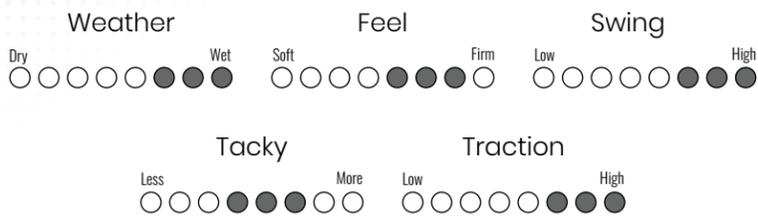

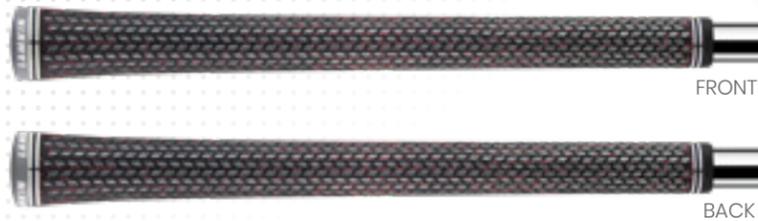

For players seeking a smoother feel than standard EPDM cord grips yet who prefer the highest levels of surface traction possible, the Crossline Genesis Full-Cord inherits a classic design that provides omni-directional traction without sacrificing control and a softer feel from the upgraded Genesis Material.

- Distinctive, densely-spaced surface pattern with all around infused cord delivers maximum surface traction for grip stability and playability
- 360 orientation allows for optimized installation flexibility particularly ideal for adjustable clubs
- Acclaimed for its outstanding performance in all weather conditions

"A grip truly worthy of being called the next generation of the popular Crossline ACE Full Cord."

- GolfWRX.com

| GRIP | SIZE | PART # | COLOR | CORE | WEIGHT |

| Crossline 360 Genesis Full Cord | Standard | 101392 | Black/White | .60 Round | 53g |

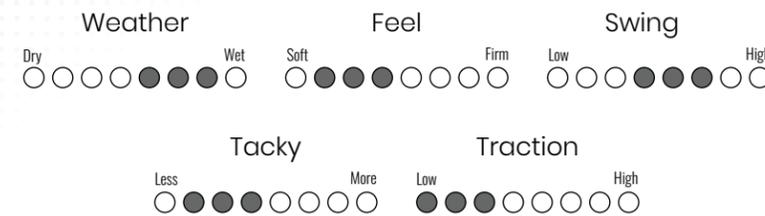

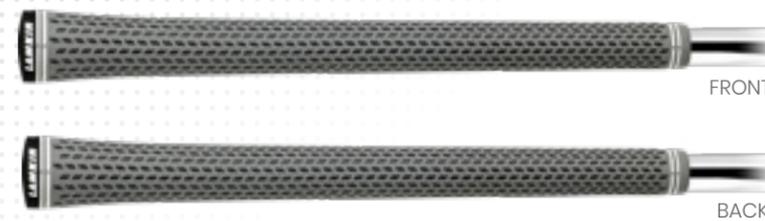

CROSSLINE 360

For fans of Lamkin's legendary Crossline Series who prefer a classic design with a slightly softer feel without sacrificing control. Crossline 360 features an enhanced "universal" Crossline pattern with an upgraded softer rubber compound that provides omni-directional traction as well as great all-weather performance.

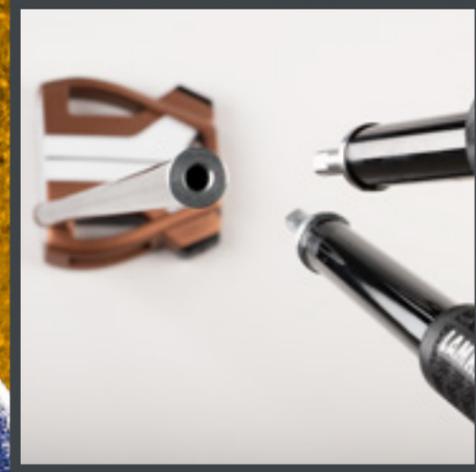

- Consistent universal Crossline pattern provides excellent traction and is ideal for adjustable clubs
- Softer than the traditional Crossline but with all the same performance and durability benefits
- The 360 orientation allows for optimized installation flexibility

"Looks great and has a soft feel without being too loose."

- GolfWRX.com

THE PERFECT FIT

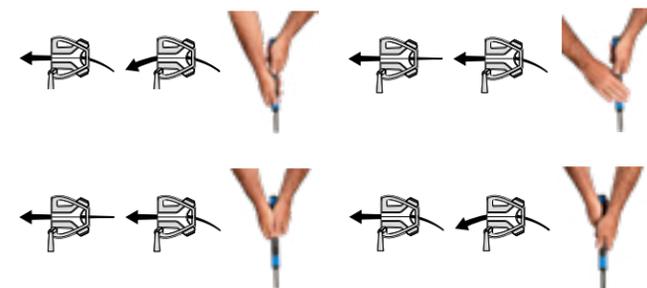

The putter is used more than any club in the bag, so helping golfers find a flatstick that works for their individual games is paramount to success on the course. Lamkin is dedicated to helping our retail partners provide the best service for their customers, which is why we developed a complete range of grip shapes, surface textures and weight characteristics to provide every golfer a perfect fit using our putter grip fitting guide and putter grip fitting system. Here are some general guidelines (more at Lamkingrips.com)

- Golfers with an arc swing will putt better with smaller sized grips and more traditional pistol shapes
- Golfers with a straight back straight through swing will putt better with larger grips with wider paddle top
